Strike Sled

Kaul Petrone was an award-winning driver for the Scheat Hover Derby before the HPG network went dark and Katana Tormark issued her call for those loyal to the dream of the Dragon's strength and created the Brotherhood regiment. Katana's proclamations and vision of a bold new age for the Dragon touched Kaul despite his removal by two generations from House Kurita's Draconis Combine. Sold on what was, in effect, a fabricated heritage of honor to the Draconis Combine, Kaul put away his racing gear and donned a combat helmet.

His well-honed skills behind the wheels of racing hovercars put him in good stead during his accelerated warrior training, and landed him his own solo Tamerlane Strike Sled. It was his reckless daring and blind luck, however, that elevated him to the rank of *gunsho* and put him in command of a lance of such vehicles. Many in the Brotherhood view Kaul as a maverick, a man who sees the battlefield as another race to be run by simply being faster than his opponents. They point to his average gunnery skills as proof that all he knows how to do is speed around and make himself a distraction to the enemy.

The speedy Tamerlane Strike Sled is a combat hovercraft based on the same hit-and-run principle that made lighter, "flying gun" designs like the Savanna Master so popular in their day. As older designs began to phase out during the Word of Blake Jihad, however, the Tamerlane came into its own, with both the Capellan Confederation and its Magistracy of Canopus allies fielding this heavier, more durable attack craft.

The Tamerlane piloted by Kaul Petrone, serial number MOC03TS-0231, originated in a Canopian factory, and came with an extended-range medium laser. During one of his first engagements with the Brotherhood, Kaul sustained heavy damage to the Tamerlane's turret while trying to dodge fire from a Highlander Zeus. Difficulty in obtaining the necessary parts for repairs resulted in a downgrade to the standard model laser, so Kaul has now redoubled his efforts to perfect his expertise in fast, evasive maneuvering.
