

# WARHAMMER AGE OF SIGMAR

## BRETONNIA

---

**WARSCROLLS  
COMPENDIUM**

---

# INTRODUCTION

In fair Sigmaron the free people of humanity gather, preserving heraldry and cultural traditions from civilisations ground beneath the weight of unceasing strife. The clamour of warlike souls fills the heavens, united in

Sigmar's name. Though some of these lost tribes have been driven from their homelands, and others cast adrift on the tides of time, every soul amongst them dreams of wreaking bloody revenge upon the forces of Chaos.

The warscrolls in this compendium allow you to use your Citadel Miniatures collection in fantastical battle, whether telling epic stories set during the Age of Sigmar, or recreating the wars of the world-that-was.

## WARSCROLL KEY

- Title:** The name of the model that the warscroll describes.
- Characteristics:** Each warscroll has a set of characteristics that tell you how fast, powerful and brave the model is, and how effective its weapons are.
- Description:** The description tells you what weapons the model can be armed with, and what upgrades (if any) it can be given. The description will also tell you if the model is fielded on its own as a single model, or as part of a unit. If the model is fielded as part of a unit, then the description will say how many models the unit should have (if you don't have enough models to field a unit, you can still field one unit with as many models as you have available).
- Abilities:** Abilities are things that the model can do during a game that are not covered by the standard game rules.
- Keywords:** All models have a list of keywords. Sometimes a rule will say that it only applies to models that have a specific keyword on their warscroll. For example, a rule might say that it applies to 'all **STORMCAST ETERNALS** within 12"'. This means that it would apply to models that have the **STORMCAST ETERNAL** keyword on their warscroll.
- Damage Table:** Some models have a damage table that is used to determine any of the model's characteristics. Look up the number of wounds the model has suffered to find the value of the characteristic in question.

**Summoned from the Mists:** Instead of setting up this model on the battlefield, you must place it to one side and say that it is set up in the mists. In each of your movement phases, roll a dice for this model. On a roll of 3 or less the model remains in the mists – you must roll again in your next movement phase. On a roll of 4+, set up this model anywhere on the battlefield, more than 9" from any enemy models. This counts as its move for that movement phase.
