In the background, another tank is exploding in a large fireball. An American flag flies on a pole to the left. The sky is filled with smoke and falling fire.

MISSIONS PACK

APRIL 2026

MISSIONS

The *World War III: Team Yankee* Missions pack is an optional expansion for tournaments and players looking for quick pick-up games. It contains new versions of the missions from the rulebook that use a different set of victory conditions and the optional Battle Plans mission selector.

The easy-to-use format means that when you print out the missions, each mission will have a larger version of the set up diagram and expanded instructions on the front side and all of the relevant mission special rules on the back.

WHICH MISSION?

There are three easy ways of selecting a mission to play.

- You can roll a die to determine the mission, or
- You and your opponent can pick a mission that suits your forces and the terrain, or
- You can pick battle plans and use the mission selector on the next page to determine the mission.

RANDOM MISSION

To quickly pick a mission, roll up a random mission. As the three defensive battles (Bridgehead, Rearguard, and No Retreat) are best suited to having an infantry-based force defending, we haven't included them in the random missions list to avoid disadvantaging a tank-based force. Roll on the following table to select your mission.

RANDOM MISSIONS	
1: Annihilation (rulebook)	4: Encounter
2: Free for All	5: Counterattack
3: Dust-Up	6: Contact

PICK A MISSION

For a cooperative approach to selecting a mission, discuss which mission you'd like to play with your opponent and pick one. With twenty missions to choose from, you have plenty of choices to try out.

MISSIONS FOR ALL WORLD WAR III

All missions can be played with either *World War III: Team Yankee* or *Checkpoint Charlie* (including *Nam* and *Fate of a Nation*).

RESERVES

Some missions require you to hold part of your force in Reserve. You may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve. You may deploy less and hold more in Reserve if you wish.

RESERVES	
FORCE SIZE	ON TABLE
50 points	30 points
60 points	36 points
75 points	45 points
80 points	48 points
100 points	60 points
125 points	75 points
150 points	90 points
200 points	120 points

HOLDING OBJECTIVES

You are Holding an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of an Objective, and end it with no enemy Tank, Infantry, or Gun teams within 4"/10cm of that Objective.

Objectives cannot be Held by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams. Nor can these teams, or any team that moved at Dash speed, prevent the enemy from Holding an Objective. Objectives can be Held or contested by Infantry that are Passengers in a Transport team.

Note: This means that you check for victory at the end of your own turn, and the game ends at that point if you have won.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams when determining if you have Repelled an Attack.

NO MAN'S LAND

Some special rules refer to No Man's Land. This is the area that is neither in the attacker's nor the defender's deployment areas. It is normally shown as plain green.

BATTLE PLANS

The Battle Plans mission selectors allow players to pick a plan that will influence the type of mission they will play. The combination of the two players' plans determines the type of mission. There are two Battle Plan mission selectors to choose from: the Battle Plans from the rulebook, and the Extended Battle Plans that adds extra missions into the mix.

Before the game, the NATO and Warsaw Pact players each pick a battle plan (Attack, Manoeuvre, or Defend). They then compare their plans on the Battle Plans table in the rulebook or the expanded one below and roll a die to see what mission they will play.

WHY SELECT ATTACK

With the Attack battle plan, you can expect to have all of your force on the table. However, you will be attacking into the teeth of the enemy defences, often with minefields. You won't have much room or time for manoeuvre in the short-range battles you face.

This suits forces that rely on brute force over mobility. You will be able to focus your firepower to reduce the enemy piece by piece as you advance into their defensive position.

WHY SELECT MANOEUVRE

A Manoeuvre battle suits a mobile force that wants space and time to develop the battle. Your spearheads will shape the battlefield for your strike force, then your reserves will sweep in to finish off the enemy while they are still reacting to your initial manoeuvres.

Armoured forces that have a good mix of mobility and firepower should choose this plan, seeking enemy flanks and weak spots rather than facing a grinding battle of attrition.

EXTENDED BATTLE PLANS

The Battle Plans mission selector allows players to control the type of mission they will play. Each player secretly selects a Battle Plan (Assault, Manoeuvre, or Defend), then both players reveal their plan at the same time. Cross-reference the choices on the table to find a list of six missions. Then roll a die to see which mission to play.

Choosing Assault will get you your whole force on the table at the start of the game starting right in the face of the enemy. You will have to assault the enemy off an objective to win, often needing to fight your way through minefields and strong defences. There won't be much manoeuvring or subtlety. It suits forces of assault infantry and heavy tanks backed by artillery and air power, willing to close rapidly with the enemy while pounding them into submission.

Choosing Manoeuvre will get you a dynamic game where you and your opponent must manoeuvre across No-Man's Land probing and feinting for weaknesses, then dashing in with rapier strikes to seize objectives. As your and your opponent's reserves arrive, they will change the balance of forces and the focus of the conflict. Speed, subtlety and biding your time to create an opening will pay dividends. It suits forces of light or medium tanks and mechanised infantry backed by spearheading reconnaissance, able to fight on a fast, mobile battlefield.

Choosing Defend will put your force on the objectives they need to hold at the start of the game, often protected by minefields. Your goal is simple - hold what you have until the end of the game. You will usually have part of your force in reserve, ready to race to the most threatened spot and drive back the enemy, securing the objective, and victory. It suits forces of infantry intermixed with anti-tank guns, backed by machine-guns, artillery, and with a hard-hitting reserve to counterattack enemy tanks and reinforce threatened objectives.

PRINTING THIS DOCUMENT

If you intend to keep these missions as separate pages then print this document in its entirety. This will give you individual pages with the mission map on one side, and its relevant special rules on the back.

However, if you intend to bind this document after printing, or otherwise keep all the pages together in a booklet, exclude or delete this page before printing. This will give you a booklet in which the mission map lies on the left-hand page and the relevant special rules are displayed on the right-hand page.

BATTLE PLAN CARDS

Print this page and cut out these cards as a handy way to choose your battle plans. Each player takes their three battle plans and selects one, then both players reveal their plans.

BREAKTHROUGH SPECIAL RULES

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF. Units in Ambush are in Foxholes when they are placed on the table.

PLACING AMBUSHES

At the start of the Defender's turn, in the Starting Step, they may place the Unit that they have been holding in Ambush. They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

FLANKING DELAYED RESERVES

(ATTACKER)

The Attacker must hold at least one Unit in Reserve.

At the start of the Attacker's *third* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their fourth turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn five they roll three dice, at the start of turn six they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Attacker's Reserves.

If the Attacker rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

The Reserves move on from the table edge within 16"/40cm of the table corner opposite the Attacker's deployment area at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

The Reserves move on from the table edge within 16"/40cm of the table corners in the Defender's deployment areas at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.

3. The Defender places one Minefield for each 25 points or part thereof in their force anywhere outside the opponent's deployment area.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

DEEP SCATTERED IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve. No more than one Battle Tank Unit or Aircraft Unit and a no more than a total of three Tank Units (including the Battle Tank Unit, Transport Units and Transport Attachments) can be placed on table. All remaining Units of these types must be held in Reserve.

A Battle Tank Unit is one with Front Armour of 4 or more. Regardless of their armour, Observer Teams are never Battle Tank Units.

ROLL FOR RESERVES

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge or corner it will arrive using the mission map as reference.

If a Unit arrives from a table edge, it may enter the table anywhere along that table edge. If the Unit arrives from a corner, they must enter the table within 16"/40cm of the corner.

The Reserves move on from the table edge at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.

BYPASS SPECIAL RULES

MEETING ENGAGEMENT (ATTACKER)

In a Meeting Engagement, players do not place their Ranged In markers as Preplanned Artillery Targets at the start of the game.

In addition, the following rules apply in the first Shooting Step of the Attacker. They do not apply in the Defender's turn, nor in subsequent turns.

- The Attacker's Aircraft cannot arrive in their first turn.
- Treat all of the Attacker's Teams as having moved when Shooting in their first Shooting Step, whether they actually moved or not.
- The Attacker's Teams cannot fire Artillery Bombardments in their first Shooting Step.

The Attacker's Teams can still Move, Dig In, or Go to Ground as normal in their Movement Step, and launch assaults in the Assault Step.

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move and are in Foxholes. They can remain where they are placed and unless placed on their first turn, shoot at their Halted ROF.

PLACING AMBUSHES

At the start of the Defender's turn, in the Starting Step, they may place the Unit that they have been holding in Ambush. They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

SCATTERED IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

ROLL FOR RESERVES

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway. When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge or corner it will arrive using the mission map as reference.

If a Unit arrives from a table edge, it may enter the table anywhere along that table edge in the Defender's deployment area. If the Unit arrives from a corner, they must enter the table within 16"/40cm of the corner.

The Reserves move on from the table edge at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

SPEARHEAD (BOTH PLAYERS)

Both players have the opportunity to use the Spearhead rules (see page 93 of the rulebook).

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.

DEPLOYMENT

1. The Defender selects up to 60% of their force to deploy and holds the rest in Immediate Reserve. Their Reserves will arrive within 16 inches/40cm of the opposite corner from their quarter.
2. The Defender may hold one of their deployed Units in Ambush.
3. They then place their deployed Units in their quarter more than 12 inches/30cm from the table centre.
4. The Attacker places all of their Units in their table quarter more than 8 inches/20cm from both centre lines.
5. All Infantry and Gun Teams start the game in Foxholes.

WHO GOES FIRST

The Attacker has the first turn. As the game is a Meeting Engagement, the Attacker will Shoot as if they Moved and cannot use Artillery Bombardments or Aircraft on their first turn.

WINNING THE GAME

- The Attacker wins if they end their turn on or after the sixth turn Holding an Objective.
- The Defender wins if they have Repelled the Attack at the end of their turn on or after the sixth turn.

COUNTERATTACK SPECIAL RULES

MEETING ENGAGEMENT (ATTACKER)

In a Meeting Engagement, players do not place their Ranged ID markers as Preplanned Artillery Targets at the start of the game.

In addition, the following rules apply in the first Shooting Step of the Attacker. They do not apply in the Defender's turn, nor in subsequent turns.

- The Attackers Aircraft cannot arrive in their first turn.
- Treat all of the Attacker's Teams as having moved when Shooting in their first Shooting Step, whether they actually moved or not.
- The Attacker's Teams cannot fire Artillery Bombardments in their first Shooting Step.

The Attackers Teams can still Move, Dig In, or Go to Ground as normal in their Movement Step, and launch assaults in the Assault Step.

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF (unless revealed on the first turn, in which case they are affected by the Meeting Engagement rule and fire at their Moving ROF). Units in Ambush are in Foxholes when they are placed on the table.

PLACING AMBUSHES

At the start of the Defender's turn, in the Starting Step, they may place the Unit that they have been holding in Ambush. They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

The Reserves move on from the table edge within 16"/40cm of the opposite corner from their quarter at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

SPEARHEAD (BOTH PLAYERS)

When a Spearhead Unit is placed on table in the normal Deployment Area during Deployment, the player may immediately Move its Teams. The movement must not take a Team within: 16"/40cm of an enemy Team it is not Concealed from, 8"/20cm of any enemy Team, or 16"/40cm of the enemy Deployment Area or any Objective outside your Deployment Area.

You may Deploy other Units entirely within 8"/20cm of a Spearhead Team, as long as they are not placed in an area the Spearhead Team may not move into.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.

SCATTERED IMMEDIATE RESERVES (BOTH PLAYERS)

Neither player may deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

ROLL FOR RESERVES

At the start of each player's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the player's Reserves.

If the player rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge it will arrive using the mission map as reference.

When a Unit arrives from a table edge, it may enter the table anywhere along that table edge in that player's table half.

The Reserves move on from the table edge at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

WHERE DO RESERVES ARRIVE

When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge it will arrive using the mission map as reference.

When a Unit arrives, it may enter the table anywhere along that table edge in the player's table half. The Reserves move on from the table edge at the start of their Movement Step.

SPEARHEAD (BOTH PLAYERS)

When a Spearhead Unit is placed on table in the normal Deployment Area during Deployment, the player may immediately Move its Teams. The movement must not take a Team within: 16"/40cm of an enemy Team it is not Concealed from, 8"/20cm of any enemy Team, or 16"/40cm of the enemy Deployment Area or any Objective outside your Deployment Area.

You may Deploy other Units entirely within 8"/20cm of a Spearhead Team, as long as they are not placed in an area the Spearhead Team may not move into.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP

LOCKED HORNS SPECIAL RULES

MEETING ENGAGEMENT

In a Meeting Engagement, players do not place their Ranged In markers as Preplanned Artillery Targets at the start of the game.

In addition, the following rules apply in the first Shooting Step of the player who has the first turn. They do not apply in the second player's turn, nor in subsequent turns.

- The first player's Aircraft cannot arrive in their first turn.
- Treat all of the first player's Teams as having moved when Shooting in their first Shooting Step, whether they actually moved or not.
- The first player's Teams cannot fire Artillery Bombardments in their first Shooting Step.

The first player's Teams can still Move, Dig In, or Go to Ground as normal in their Movement Step, and launch assaults in the Assault Step.

IMMEDIATE RESERVES (BOTH PLAYERS)

Neither player may deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

ROLL FOR RESERVES

At the start of each player's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the player's Reserves.

If the player rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

The Reserves move on from the table edge within 16"/40cm of the table corner on the same long table edge as the player's deployment area at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

SPEARHEAD (BOTH PLAYERS)

When a Spearhead Unit is placed on table in the normal Deployment Area during Deployment, the player may immediately Move its Teams. The movement must not take a Team within: 16"/40cm of an enemy Team it is not Concealed from, 8"/20cm of any enemy Team, or 16"/40cm of the enemy Deployment Area or any Objective outside your Deployment Area.

You may Deploy other Units entirely within 8"/20cm of a Spearhead Team, as long as they are not placed in an area the Spearhead Team may not move into.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

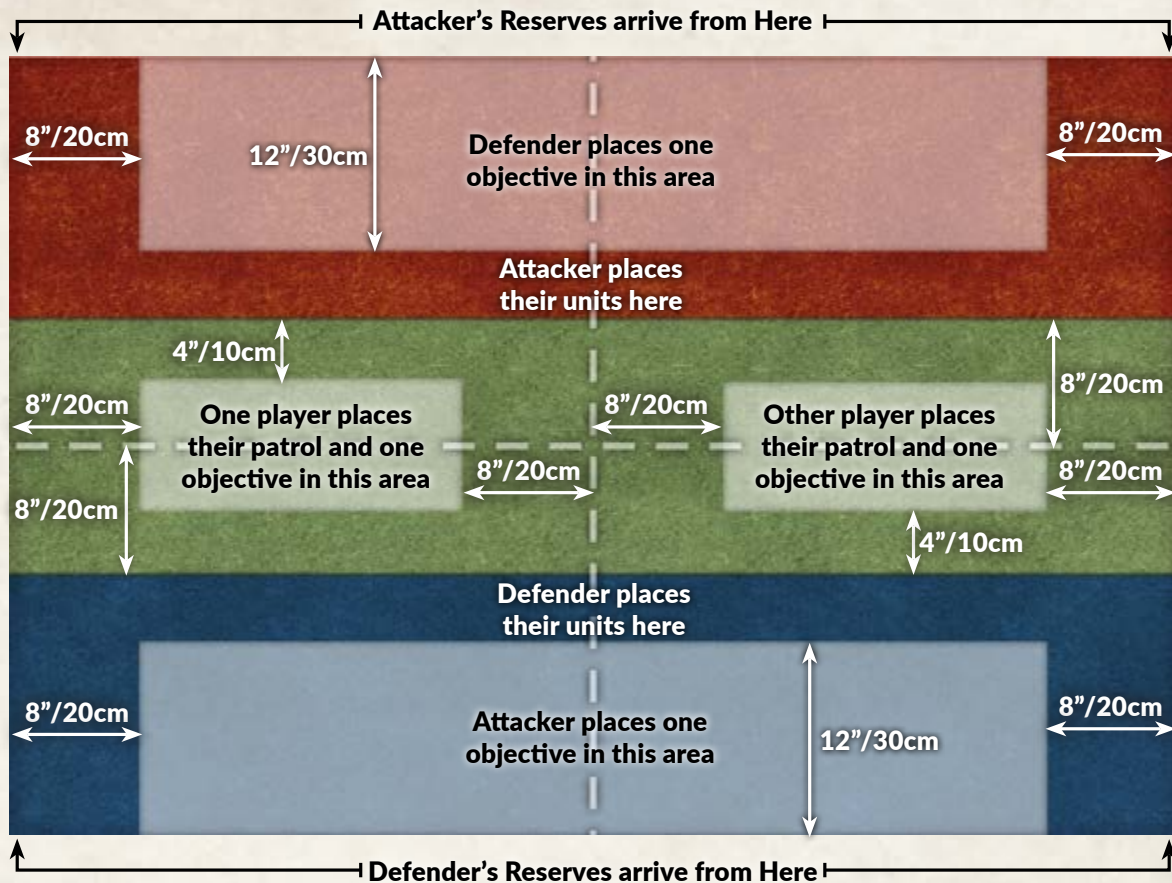

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REARGUARD SPECIAL RULES

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF. Units in Ambush are in Foxholes when they are placed on the table.

PLACING AMBUSHES

At the start of the Defender's turn, in the Starting Step, they may place the Unit that they have been holding in Ambush. They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

STRATEGIC WITHDRAWAL (DEFENDER)

The Defender starts the game with no Delay Counters.

At the start of each turn from turn two onwards, after checking Victory Conditions, the Defender counts the number of Units (not counting their Attachments and any Independent Teams) and Delay Counters that they have on table.

- If the total is five or more, they must Withdraw one Unit (other than an Independent Team) and its Attachments and remove all Delay Counters.
- If they have less than five Units and Delay Counters combined, they gain a Delay Counter, but do not Withdraw any Units.

WITHDRAWING UNITS

When the Defender is required to Withdraw a Unit, all of the teams of that Unit (and its Attachments) are removed from the table. An Attachment must always be withdrawn with its core Unit.

If a Withdrawing Unit is not in Good Spirits, it will be treated as being Destroyed when working out Victory Points.

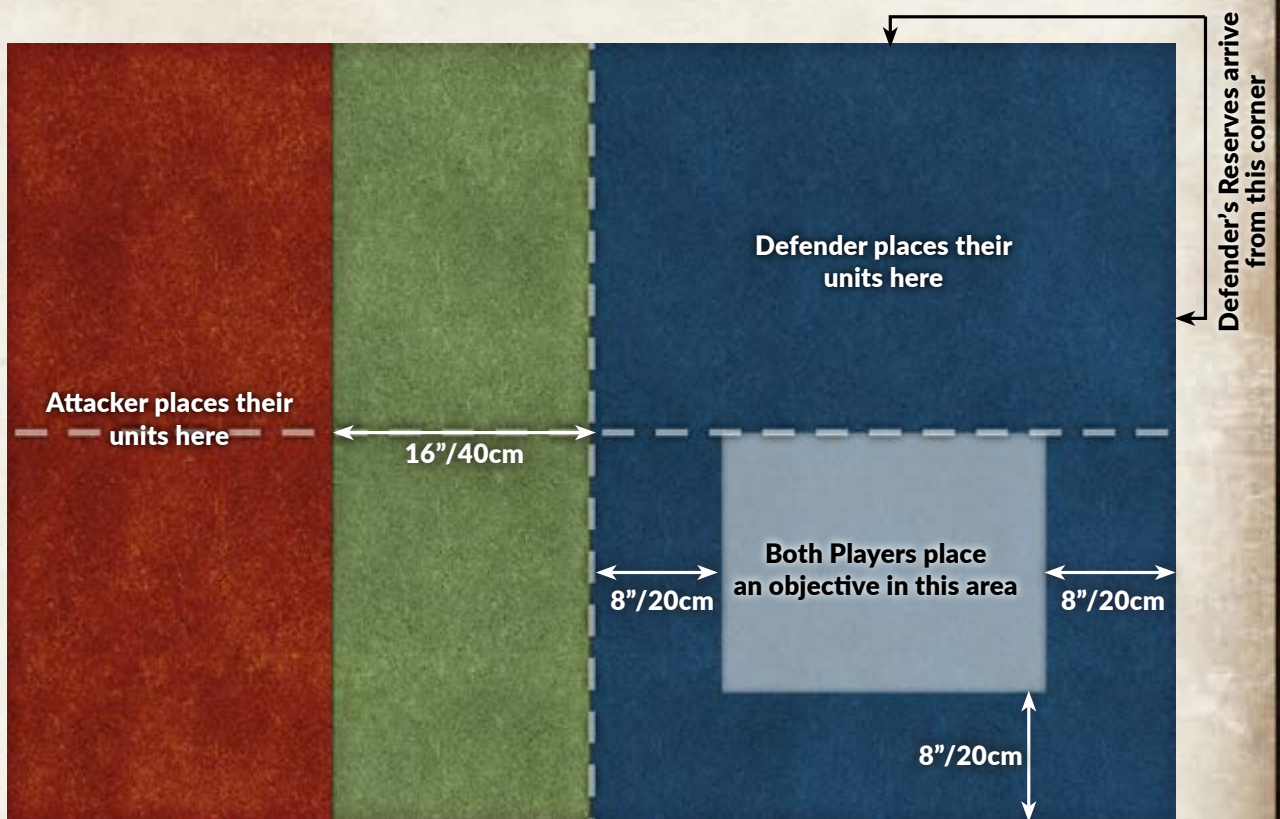

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF. Units in Ambush are in Foxholes when they are placed on the table.

They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

DEEP IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve. No more than one Battle Tank Unit or Aircraft Unit and a no more than a total of three Tank Units (including the Battle Tank Unit, Transport Units and Transport Attachments) can be placed on table. All remaining Units of these types must be held in Reserve.

A Battle Tank Unit is one with Front Armour of 4 or more. Regardless of their armour, Observer Teams are never Battle Tank Units.

ROLL FOR RESERVES

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

The Reserves move on from the table edge within 16"/40cm of the table corner opposite the Objectives in the Defender's deployment area at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.

ROADBLOCK SPECIAL RULES

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF. Units in Ambush are in Foxholes when they are placed on the table.

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

SCATTERED RESERVES (BOTH PLAYERS)

Neither player may deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve.

DEEP RESERVES (DEFENDER)

The Defender can place no more than one Battle Tank Unit or Aircraft Unit and a no more than a total of three Tank Units (including the Battle Tank Unit, Transport Units and Transport Attachments) on table. All remaining Units of these types must be held in Reserve.

A Battle Tank Unit is one with Front Armour of 4 or more. Regardless of their armour, Observer Teams are never Battle Tank Units.

ROLL FOR IMMEDIATE RESERVES (ATTACKER)

At the start of the Attacker's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now. The Reserves move on from the Defender's short table edge at the start of their Movement Step.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Attacker's Reserves.

If the Attacker rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

ROLL FOR DELAYED RESERVES (DEFENDER)

At the start of the Defender's *third* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their fourth turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn five they roll three dice, at the start of turn six they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

WHERE DO RESERVES ARRIVE

When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge or corner it will arrive using the mission map as reference.

If a Unit arrives from a table edge, it may enter the table anywhere along that table edge. If the Unit arrives from a corner, they must enter the table within 16"/40cm of the corner.

The Reserves move on from the table edge at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

SPEARHEAD (BOTH PLAYERS)

When a Spearhead Unit is placed on table in the normal Deployment Area during Deployment, the player may immediately Move its Teams. The movement must not take a Team within: 16"/40cm of an enemy Team it is not Concealed from, 8"/20cm of any enemy Team, or 16"/40cm of the enemy Deployment Area or any Objective outside your Deployment Area.

You may Deploy other Units entirely within 8"/20cm of a Spearhead Team, as long as they are not placed in an area the Spearhead Team may not move into.

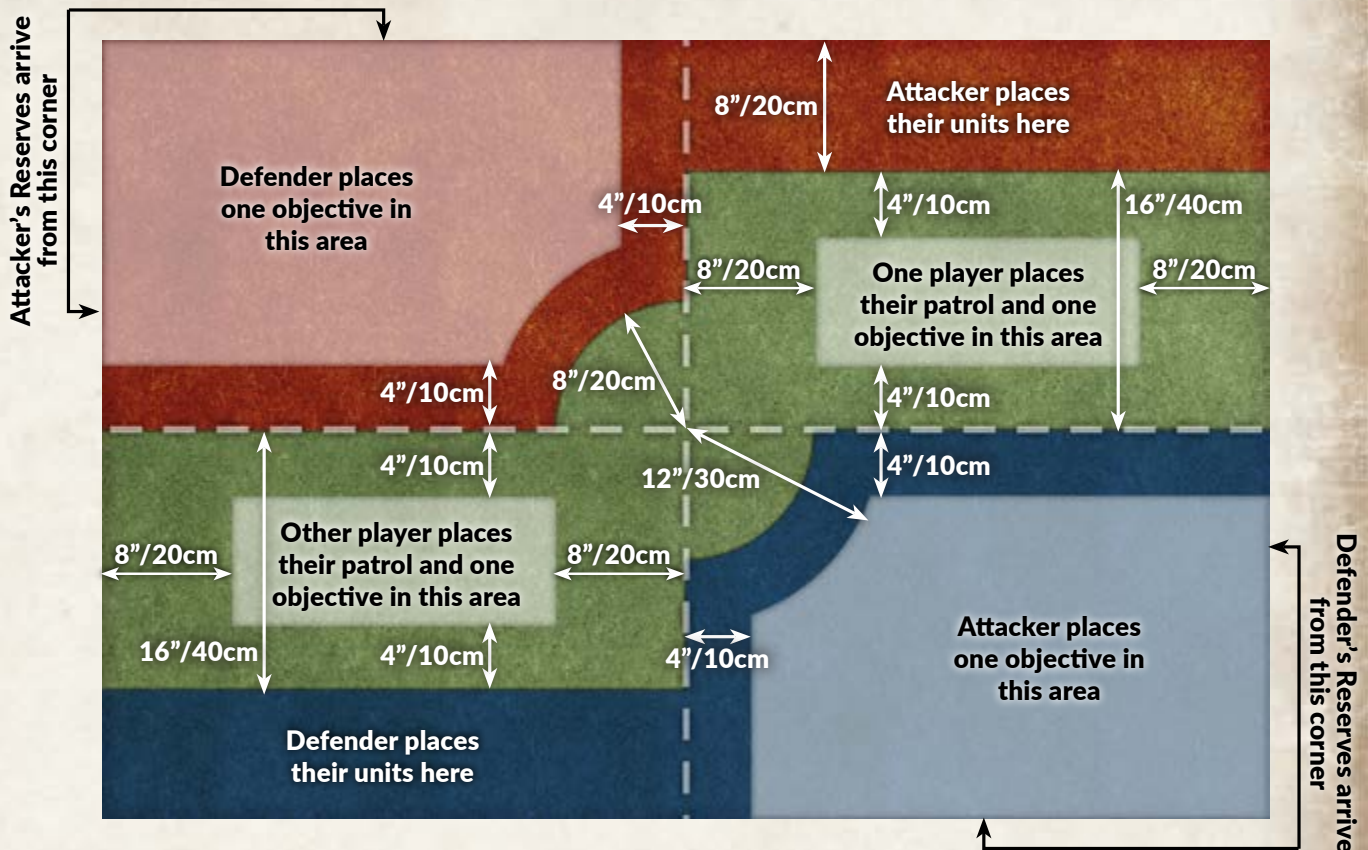

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

3. Starting with the Defender, the players place Ranged In markers for all of their deployed (including in Ambush) Artillery Units.
4. They then place their deployed Units in their table half more than 20"/50cm from the short table edges.
5. The Attacker places all of their Units in their table half more than 16"/40cm from the long centre line or within 8"/20cm of the short table edge.
6. All Infantry and Gun Teams start the game in Foxholes.

WHO GOES FIRST

The Attacker has the first turn.

WINNING THE GAME

- The Attacker wins if they end their turn Holding an Objective.
- The Defender wins if they have Repelled the Attack at the end of their turn on or after the sixth turn.

TOEHOLD SPECIAL RULES

AMBUSH (DEFENDER)

The defending player holds one Unit in Ambush when they deploy. Units held in Ambush are treated as being on the table, but their location isn't specified until they reveal themselves. They are held off the table at the start of the game.

ALREADY THERE

Ambushing Teams do not have to move. They can remain where they are placed and shoot at their Halted ROF. Units in Ambush are in Foxholes when they are placed on the table.

PLACING AMBUSHES

At the start of the Defender's turn, in the Starting Step, they may place the Unit that they have been holding in Ambush. They must place the entire Unit, and it must be placed with all of its Teams within 6"/15cm of the Unit Leader. A Unit with at least eight Tank Teams or at least twelve Teams in total increases this distance to 8"/20cm.

The Defender may place a Team from Ambush anywhere in their Deployment Area, provided that it is:

- more than 16"/40cm of any enemy Team within Line of Sight, unless Concealed by Terrain from it, and
- more than 4"/10cm of all enemy Teams.

ATTACHMENTS AND AMBUSHES

When you hold a Unit in Ambush, you may also hold its Transport or Infantry Attachment in Ambush as well, or Deploy them as normal. If you do hold both a Unit and its Attachment in Ambush together, the Infantry must be Mounted in their Transports when they are placed from Ambush.

DEEP SCATTERED IMMEDIATE RESERVES (DEFENDER)

The Defender may not deploy more than 60% of the agreed points total for the game on the table. The remainder must be held in Reserve. No more than one Battle Tank Unit or Aircraft Unit and a no more than a total of three Tank Units (including the Battle Tank Unit, Transport Units and Transport Attachments) can be placed on table. All remaining Units of these types must be held in Reserve.

A Battle Tank Unit is one with Front Armour of 4 or more. Regardless of their armour, Observer Teams are never Battle Tank Units.

ROLL FOR RESERVES

At the start of the Defender's *first* turn, they roll a die. On a roll of 5+ their first Unit arrives from the Reserve. It may be any Unit of their choice, but must arrive now.

At the start of their second turn, they roll two dice. Each roll of 5+ results in another Unit arriving from their Reserves. They keep rolling at the start of each of their following turns adding one more die than the previous turn, so at the start of turn three they roll three dice, at the start of turn four they roll four dice, and so on. Each roll of 5+ brings another Unit on from the Defender's Reserves.

If the Defender rolled three or more dice to get Reserves in this turn, but failed to score any rolls of 5+, they automatically receive one Unit from Reserve anyway.

When each Unit arrives from Reserve, the owning player rolls a die to determine from which table edge or corner it will arrive using the mission map as reference.

If a Unit arrives from a table edge, it may enter the table anywhere along that table edge. If the Unit arrives from a corner, they must enter the table within 16"/40cm of the corner.

The Reserves move on from the table edge at the start of their Movement Step. The entire Unit must be In Command at the end of its Movement in the turn it arrives from Reserves. Attachments and their core Unit must arrive from the same point, although Passengers may be Mounted or Dismounted. A Unit may not use Movement Orders until it has moved on to the table.

SPEARHEAD (BOTH PLAYERS)

When a Spearhead Unit is placed on table in the normal Deployment Area during Deployment, the player may immediately Move its Teams. The movement must not take a Team within: 16"/40cm of an enemy Team it is not Concealed from, 8"/20cm of any enemy Team, or 16"/40cm of the enemy Deployment Area or any Objective outside your Deployment Area.

You may Deploy other Units entirely within 8"/20cm of a Spearhead Team, as long as they are not placed in an area the Spearhead Team may not move into.

VICTORY POINTS

Count the number of Units Destroyed, including HQ Units, but not Independent Teams. Count core Units and their Attachments separately, so if both are Destroyed, this counts as two Units.

- Winner lost 0-1 Units: Winner 8 VP, Loser 1 VP
- Winner lost 2 Units: Winner 7 VP, Loser 2 VP
- Winner lost 3+ Units: Winner 6 VP, Loser 3 VP

Both players lose a game that runs out of time. If neither player won, both players treat their opponent as the winner and gain Victory Points as the Loser.

HOLDING OBJECTIVES

You Hold an Objective if you start your turn with a Tank, Infantry, or Gun team within 4"/10cm of it, and end it with no opposing Tank, Infantry, or Gun teams within 4"/10cm of it. Objectives cannot be Held or contested by Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams, or by teams that moved at Dash speed.

REPELLING AN ATTACK

You have Repelled an Attack when, at the end of your turn, every Objective has no enemy Tank, Infantry, or Gun teams within 4"/10cm. Ignore enemy Tank teams that are Bailed Out, Aircraft, Transports, or Independent teams.
